

AI Suitcase Experience Agreement

Thank you for your interest in participating “Walking with the “AI Suitcase” Through Permanent Exhibits”. The “AI Suitcase” is a safe navigation robot, but it can be risky in unexpected situations and dependent on how it is used. This program is available only if you meet the eligibility described in this document, and fully comprehend the Important Notes. Please read this document carefully before the experience. We appreciate your understanding.

<Eligibility for Participation>

The participant must meet all the following Eligibility for Participation:

- No anxiety or difficulty in walking.
- * The AI suitcase does not have a function to support the weight of the user. From a safety perspective, individuals who regularly use mobility aids such as mobility scooters or walking canes for assistance with walking (or posture) are kindly requested to refrain from experiencing it.
- Not pregnant or no indication of possible pregnancy.
- Height requirement: 120cm or over.
- * If you are under 120cm, you may experience only if you follow the requirements as instructed by the staff.

<Important Notes>

- Please fully understand the correct use and restrictions while following the instructions of the staff. (If you do not follow the instructions of the staff, we may ask you to stop your use of the facility because we cannot ensure your safety.)
- Please be advised that individuals with hearing impairments may not be able to fully enjoy the experience.
- If the vehicle is damaged intentionally or through gross negligence, you may be required to compensate for the damage.
- Depending on the method and conditions of use, there may be risks involved. The user shall bear the cost of any personal injury, property damage, theft, or the other damage caused by the user’s carelessness, or any personal injury, property damage caused by use of the facility in violation of the staff’s instructions or the Important Notes. In such cases, the Museum will not be held responsible in any way.
- There may be instances where we capture photos, videos, or audio recordings of the experience. The data obtained will be used solely for research purposes and will be utilized in research and development by companies, universities, and research institutions that are joint research

organizations. All data will be thoroughly anonymized to prevent the identification of individuals and will be used for conference presentations, scholarly papers, and presentations. In the future, to ensure research transparency, there may be instances where sufficiently anonymized data is released as open data when academically required for publication.

- The AI suitcase utilizes a dialogue system powered by AI. Responses generated by the AI may occasionally contain incorrect information or inappropriate expressions. While filtering processes are implemented to suppress such response content, they do not guarantee the accuracy or completeness of the responses.
